

10 Gram Ceramic Commercial Ozone Generator

Product Introduction

This ceramic ozone generator can be used for air disinfection and purification. Ozone can kill viral bacteria in the air and on the surface of objects. Ozone disinfection does not cause secondary pollution and reduces the cost of repeated disinfectant purchases.

Features

- Long life ceramic plate
- 16 sets micro-computer timer
- Portable light weight design
- Inside fan cooling
- High grade stainless-steel

Main Technical Specification

Model	Ozone Output	Power	Size (cm)	Packing size	NW/GW	Purify Area
QL-10G-C	10 g/h	150 W	33*16*21	38*24*22	6.8/7.2 kg	0-200 m ²

1 Check the tightness of the disinfection space before use. If the disinfection space is not well sealed, it will affect the disinfection effect. Therefore, please check whether the doors and windows are closed before using this product.

2 Set the disinfection time. After plugging in the power, set the disinfection time and turn it on. For advice on disinfection duration, please read later.

3 Wait for 20-30 min after shutdown to allow residual ozone to decompose by itself. Please avoid entering the room immediately after shutdown.

4 Open doors and windows for ventilation. Ozone generator disinfection will consume oxygen in the room. After disinfection, it is recommended to open the windows and doors for ventilation.

Cautions:

1 Be sure not to leave plants, animals or humans in the room before running the generator. 2 Do not enter the room after turning on the machine until disinfection is complete. High levels of ozone during disinfection may damage the human respiratory tract.

Suggested Disinfection Duration

Product disinfection duration:

Under *normal circumstances*, the general disinfection requirements can be met by turning on *20-30 min*. Can be increased to 50-60 min according to environment. The disinfection time should not be too long to avoid corrosion of metals and some organic materials.

Product applicable area:

10 gram: 0-200 m²

Product applicable places:

Small spaces such as hotel, apartment, bedroom, lavatory, aseptic room

hotel

apartment

toilet
